Follett undercounter freezers and refrigerators are shipped with leveling legs. When installing the leveling legs, it is possible to install them in the wrong mounting locations. To ensure that the leveling legs are mounted in the correct location, refer to the following information.

Action

1. Locate the four leveling legs shipped with the unit.
2. Carefully tilt unit (not more than 30°) to access mounting locations. Install leveling legs in correct location (**Fig. 2**).
