

Save maintenance costs with Symphony Plus™ 1 hour cleaning and sanitizing

- Semi-automatic cleaning eliminates the need to disassemble ice machine
- Cleaning solutions can easily be added to the system by simply pouring them into the cleaning cup
- Facilities with multiple units can save thousands of dollars a year on cleaning and sanitizing alone
- Easier to set standard work rates for internal or third party technicians to control facility maintenance budgets

Descal, clean and sanitize in **only 1 hour**

Potential savings with Symphony Plus 1 hour cleaning and sanitizing					
		Current dispensers ¹		Symphony Plus	Savings with Symphony Plus
Time to clean and sanitize one dispenser		2 hours	4 hours	1 hour	1-3 hours
In-house staff	Cost per hour	\$50	\$50	\$50	
	Cost per machine	\$100	\$200	\$50	
	10 dispensers, 2X/yr (annual cost)	\$2000	\$4000	\$1000	Save \$1000-\$3000/year
Third party provider	Cost per hour	\$100	\$100	\$100	
	Cost per machine	\$200	\$400	\$100	
	10 dispensers, 2X/yr (annual cost)	\$4000	\$8000	\$2000	Save \$2000-\$6000/year

¹ Different brands and models have different cleaning requirements. Use your own current cleaning and sanitizing times and labor costs to calculate specific savings.

There are three easy steps to clean and sanitize Symphony Plus

1. Press clean switch to purge all water from the evaporator and reservoir.
2. Fill cleaning cup with ice machine cleaner until the cleaner full light comes on.

The ice machine does the rest.

When rinsing is complete, the maintenance light will turn off.

3. Sanitize the ice transport tube by removing the compression nozzle and inserting two Follett SaniSponge™ cleaning sponges.

While the ice machine is automatically cleaning and sanitizing, clean and sanitize the dispenser with the remaining solution.

For detailed instructions see the service manual.
