

# Redefining the Premium ice machine

## Introducing Champion™

### Champion ice machines

Cleaner. Easier. Better. We made cutting edge refinements, improving upon the platform that made the original 7 and 15 Series the market leader.

We've added a hot water option to this customer preferred Chewblet ice dispenser for even more drink options. Touchless dispensing is now standard, and a suite of sanitation upgrades keep this dispenser incredibly clean.

See how we can partner to deliver more drink options, cleanly and reliably.

Optional hot water

Touch free dispense and more sanitation upgrades

Upgraded touch-screen with diagnostics

Ion-exchange filter for scale busting

Still drainless/easy to install
