

# Edge Series™ undercounter freezer

Follett Edge Series undercounter freezer with variable speed compressor is perfect for vaccine, pharmaceutical and medical product storage.

- 5 cubic feet of storage capacity
- Front-breathing design allows easy installation under standard-height counters
- Extremely quiet, 43 dBA

## High performance

Designed to maintain temperature uniformity of  $\pm 5$  C whether the unit is loaded or empty. Evaporator shelving and forced air circulation ensure swift temperature pull-down and rapid recovery.

## Controller and alarms

Door-mounted easy-to-view LED digital display features preset automatic alarm tracking around the set point, consistent with vaccine and high-value product storage requirements.

## Access port and security

1.2" (3.05 cm) access port permits the passage of external temperature monitoring probes.

## Protection for valuable products

Engineered to meet the strict CDC vaccine guidelines in a small footprint.

## Energy efficient and sustainable

Natural R600a refrigerant meets Significant New Alternatives Policy (SNAP) and the AIM Act of 2020 for the low global warming potential and no ozone-depleting substances.

## Manual defrost

Ensures that sensitive frozen enzymes or vaccines are not exposed to temperature deviation.
