

Follett Solutions for Blood Banks

Single door upright refrigerators and freezers
Double door upright refrigerators

Plasma chiller

Undercounter refrigerators
and freezers

Undercounter ice machine bin

Follett blood bank refrigerators and plasma freezers safely store blood and blood components, meeting all requirements for AABB, ARC and FDA.

- Refrigerators and freezers range from 5 cu ft to 45 cu ft of storage capacity
- Blood bank refrigerators maintain blood products at 2 C to 6 C
- Plasma freezers maintain frozen plasma at -30 C
- Plasma chiller rapidly freezes (80) 450 ml room-temperature plasma bags to -40 C in one hour

Maestro Plus™ undercounter flake ice machine bin provides the ice capacity you need in a small footprint.

- Produces 425 lb (193 kg) of ice per day with 75 lb (34 kg) of storage
- High surface area of flake ice chills quickly and maintains samples at desired temperature
- Flake ice holds test tubes and lab vials securely, even when ice is melting

Trust Follett's blood bank refrigerators and plasma freezers to protect your valuable blood products
