base stand accessories

Standard base stand.
12BASE-00 shown.

Optional filter system
factory installed in base.
12BASE-CF shown.

Stainless steel base stand transforms Follett® countertop dispensers into freestanding dispensers. All bases include stainless steel exterior (accent trim on 25 and 50 Series) and stainless legs with adjustable flanged feet.

Space-saving design

- base stand frees up valuable counter space
- low maintenance, stainless steel exterior
- base stands transform countertop dispensers into freestanding models that can be connected to a wall drain without the need for a condensate pump

Available with or without factory installed water filter system

Water filter systems factory installed in Symphony Plus™ base stands

- systems are pre-plumbed and ready for external connections
- convenient filter bracket mounting system allows easy access to filter cartridges
- three filtration systems available, all of which remove particles down to 0.5 micron to reduce scale build-up and improve machine performance
 - standard capacity carbon filter removes chlorine, off tastes and odors
 - high capacity carbon filter removes chlorine, off tastes and odors while providing increased time between filter changes
 - high capacity carbonless filter provides filtration and increased time between filter changes, while allowing chlorine and chloramines from municipal water supplies to pass through, helping to inhibit bacteria growth
